Member: District J - Quad-Lakes Solid Waste Management District

Year: 2014

Cycle: Fiscal Period: July 1st - June 30th

SOLID WASTE MANAGEMENT DISTRICT ANNUAL REPORT

1 (a). What waste goals did the district have for the fiscal year period and what actions did the districts take to achieve these goals?

(1) To fund projects which divert waste; this goal was achieved by a decision to utilize FY15 allocations to fund projects approved during the grant call for FY14 funds, given the quality and impact of project applications received; (2) Promote anonymous reporting of illegal dump sites; this goal was achieved by directing residents and businesses through the region to the reporting provided on the district's RPC's website; (3) Solicit member cities and counties to apply for grant funds to conduct special collection events for household hazardous waste, to enhance existing recycling services, or to provide new recycling services; this goal was achieved by maintaining relationships with member cities and counties and by keeping them informed through mailings, emails, website, and meetings;

1 (b). What waste goals does the district have for the upcoming fiscal period and what actions does the district plan to take to achieve these goals. Please include the types of grant proposals that will be sought for the upcoming period to assist in meeting these goals.

(1) To increase/enhance recycling services/options throughout the district by working with cities, counties, and sheltered workshops (2) To address the need for scrap tire collections (3) To address the need for household hazardous waste collections Again, the district maintains relationships with member cities and counties, as well as with the 2 sheltered workshops in the district. The district's planner works with these groups to find waste reduction needs and helps to find solutions to those needs, on a regular basis. Because there is a need throughout the district for a scrap tire collection and HHW collection, the planner aims to seek funding and/or solutions to address these needs.

2 (a). What recycling goals did the district have for the fiscal year period and what actions did the district take to achieve these goals?

	GOAL:	ACTION:
1	To fund projects to divert HHW, electronics waste, & waste oil	In June, the district teamed with Vintage Tech Recyclers to conduct an electronics collection event, collecting approx. 4,000 lbs of electronic waste. The district closed an FY13 sub grant which diverted waste oil by collecting oil and using it for heat; the district discussed HHW with member cities and counties, but there was no interest in the development of an HHW collection project.
2	Promote anonymous reporting of illegal dump sites	For the past several years, the district & Kaysinger Basin RPC have accepted illegal dumping reports via their website; until the new website launched in 2014, only one

GOAL:		ACTION:
		report was received through this medium. The district plans to look into new ways to collect information about illegal dump sites, such as print advertisements with forms included.
3	Solicit member cities and counties to apply for grant funds	Although the district did not hold a grant call, the district planner continued to work with cities, counties, sheltered workshops, and other community organizations in promoting waste reduction and developing potential project ideas for the upcoming FY15 grant call.

2 (b). What recycling goals does the district have for the upcoming fiscal year period and what actions does the district plan to take to achieve these goals? Please include the types of grant proposals that will be sought for the upcoming period to assist in meeting these goals?

(1) To increase/enhance recycling services/options throughout the district by working with cities, counties, and sheltered workshops (2) To address the need for scrap tire collections within the district (3) to address the need for household hazardous waste collections within the district Actions the district plan to take include newspaper announcements, radio, and online advertising to raise public awareness of these goals and to keep these goals in mind when evaluating projects.

3 (a). What resource recovery goals did the district have for the fiscal year period and what actions did the district take to achieve thee goals?

The district's resource recovery goal was to fund projects that involve the purchase of items made from recycled material. During FY14, three projects were funded that accomplished this goal.

3 (b). What resource recovery goals does the district have for the upcoming fiscal year period and what actions does the district plan to take to achieve thee goals? Please include the types of grant proposals that will be sought for the upcoming period to assist in meeting these goals.

The district will continue to encourage and review projects that involve the acquisition of items made from recycled material.

8. Describe your district's grant proposal evaluation process.

Notices for 'Grants Availability' are published in each of the district's six counties, which announces mandatory application training; training is held and applicants are given 30-45 days to submit proposals; applications are received and provided to advisory committee members, who then meet to evaluate, rank, and suggest funding awards to board; board receives committee recommendations, along with applications, then meets to award funding; planner processes results from both meetings and prepares awarded applications for DNR SWMP review
